VERSION 1.0

2026-08-19

OWNER: TIA POWER

INTRODUCTION & BRAND STORY

A private books workspace, not a public brand site

Business Ledger is a private multi-business accounting workspace to keep the books for side businesses: income, expenses, invoices, P&L reports and South African tax-year summaries. SOURCE · INDEX.HTML META + README

Purpose of this manual

This is the identity system for the Ledger product chrome (sidebar mark, blue actions, invoice print). It is not a mockup board and not a wireframe. The product itself is a private finance tool — do not publish this manual or the app.

Brand essence

Private books. Five trades. One screen. DRAFT — CONFIRM

Keep the books for every side business in one place.
SOURCE · DASHBOARD HERO

Product title: Business Ledger – Multi-Business Books. Legal trading name is not in project docs. DRAFT — CONFIRM

This product is

A local, static HTML/CSS/JS books tool with browser `localStorage`, ZAR formatting (`en-ZA`), South Africa tax year 1 Mar–28/29 Feb, and a switcher for five side businesses. No VAT is added because the businesses are marked as not VAT-registered. SOURCE · PROJECT.MD, APP.JS, README

This product is not

A public website, a bank, a SARS eFiling product, or a multi-tenant SaaS. It is also not a substitute for a tax practitioner. Backups live as JSON in the project `backups/` folder.
SOURCE · README / PROJECT.MD

Umbrella

Ledger sits under the Life Whatever hub and tracks: Power Designs Web, Power Designs Apps, Sunday Bakery, Nervous System Reset, Custom Note Book Project. Each business has its own colour chip in the UI. Ledger blue (`#1f5fbf`) is the product identity — not a replacement for those product brands. SOURCE · PROJECT.MD, APP.JS BUSINESSES[]

STRATEGY

Mission, vision, and the ground we stand on

MISSION SOURCE

Keep the books for every side business in one place — profit, cash movement, invoices, and what still needs attention.

VISION DRAFT — CONFIRM

Every rand that belongs to these businesses is recorded, labelled by trade, and ready to export — so tax season is a file pack, not a reconstruction.

VALUES DRAFT — CONFIRM · GROUNDED IN PRODUCT BEHAVIOUR

Private by default

The app is a local workspace. Do not publish; no secrets in repo docs.

Honest about tax

No VAT line. Tax overview is a preparation helper, not a filing product.

Backup first

Export JSON regularly. Import round-trip is a first-class action in the top bar.

One desk, five trades

Filter by business and period. Colour marks which trade a row belongs to.

Ready, not fussy

Static stack, 48px taps, primary CTA full-width on forms. Product is marked complete / ready to use.

Personality

Calm · Precise · Operational · Local (ZA) · Unshowy

Draft — confirm

POSITIONING SOURCE · README

For the operator of several South African side businesses who needs books, quotes, orders, and NSR listing checks in one Chrome window — not five spreadsheets and not a cloud accounting suite.

AUDIENCE DRAFT — CONFIRM

The owner-operator of Power Designs Web / Apps, Sunday Bakery, Nervous System Reset, and Custom Note Book. Comfortable in Chrome on this PC. Needs SA tax-year framing and ZAR, not USD-first UI.

BRAND PROMISE SOURCE · SIDEBAR LOCKUP

Private books.

LOGO SYSTEM

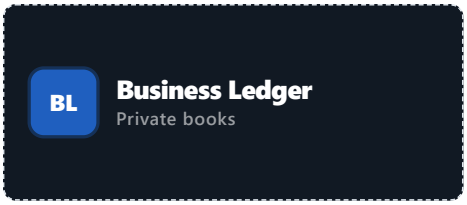

The BL mark and wordmark

Source: `index.html .brand-mark` is a 40×40px rounded square, brand blue, white "BL", font-weight 900. Wordmark is "Business Ledger" + small "Private books". Favicon: `assets/business-ledger.ico`. No separate SVG wordmark is in the repo — CSS-drawn mark is the print fallback.

PRIMARY LOCKUP

SECONDARY — STACKED (SIDEBAR)

SYMBOL / ISOTYPE

WORDMARK ONLY

ON HERO BLUE

Do not replace BL with a serif monogram or a circle. The product mark is a rounded square (radius 8px) matching UI controls.

SOURCE · STYLES.CSS .BRAND-MARK

LOGO SYSTEM · USAGE

Favicon, mono, reverse, space, and size

FAVICON / APP ICON

Use the ICO at `assets/business-ledger.ico`. Theme colour `#1f5fbf`.

MONOCHROME

REVERSE

CLEAR SPACE

Clear space = the 40px mark height. Matches sidebar gap (12px is tighter in-app; print uses a full mark unit). DRAFT — CONFIRM PRINT UNIT

MINIMUM SIZE

Favicon 16–24 px

UI 40 px (source)

Print lockup ≥ 12 mm

LOGO SYSTEM · DO'S & DON'TS · CO-BRANDING

Protect the mark

Do — 8px square on a quiet field

Do — reverse on sidebar / hero

Do — ink when colour cannot print

Don't stretch

Don't rotate

Don't recolour off-palette

Don't add glow or shadow

Don't outline in gold

Don't sit on a busy photo

Co-branding with the five trades

Ledger blue identifies the books app. Each tracked business keeps its own colour in lists and checklists — do not recolour the BL mark to bakery gold or notebook coral. SOURCE · APP.JS BUSINESSES[].COLOR

BL **Business Ledger** | Power Designs Web · Power Designs Apps · Sunday Bakery · Nervous System Reset · Custom Note Book

Partner / agency lockups: not documented. Do not invent a public co-brand. DRAFT — CONFIRM

COLOR PALETTE

Tokens from `styles.css :root`

Primary · Blue

HEX	#1F5FBF
RGB	31, 95, 191
CMYK	84 · 50 · 0 · 25
PMS	Draft — confirm

Secondary · Teal

HEX	#16766A
RGB	22, 118, 106
CMYK	81 · 0 · 10 · 54
PMS	Draft — confirm

Accent · Gold

HEX	#BD8728
RGB	189, 135, 40
CMYK	0 · 29 · 79 · 26
PMS	Draft — confirm

Ink

HEX	#182028
RGB	24, 32, 40
CMYK	40 · 20 · 0 · 84
PMS	Draft — confirm

Paper

HEX	#FFFFFF
RGB	255, 255, 255
CMYK	0 · 0 · 0 · 0
PMS	—

Muted

HEX	#68717A
RGB	104, 113, 122
CMYK	15 · 7 · 0 · 52
PMS	—

Soft

HEX	#F4F6F8
RGB	244, 246, 248
CMYK	2 · 1 · 0 · 3
PMS	—

Coral · alert / Note Book

HEX	#D65B4A
RGB	214, 91, 74
CMYK	0 · 57 · 65 · 16
PMS	Draft — confirm

HEX/RGB from CSS. CMYK is a conversion for print notes, not a press proof. Line `#dce3ea`, dash-soft `#c5cdd4`, sidebar `#111923`, Apps chip `#14B8A6` (app.js, not :root). Windows Terminal tab for this project is the same primary blue.

COLOR PALETTE · USAGE, CONTRAST, THEMES

When to use which colour

ROLE	USE FOR	DO NOT USE FOR
Primary blue	Mark, active nav, primary buttons, invoice rule, theme-color, WT tab	Bakery or notebook rows (those keep their business chips)
Teal	NSR live KPIs, positive status pills, secondary emphasis	Replacing the BL mark
Gold	Month-alert action, Sunday Bakery chip, warm notices (`#fff8e8` / `#f0d59f`)	Body copy (contrast fails WCAG AA for 14px)
Coral	Destructive icon buttons, blocked status, Custom Note Book chip	Primary actions
Ink / paper / soft	All long text; page ground is soft, panels are paper	Accent fills

Contrast (sRGB, relative luminance)

Ink on paper ≈ **16.5:1** AAA. Primary on white ≈ **6.1:1** AA for body. White on primary ≈ **6.1:1** AA. Teal on white ≈ **5.5:1** AA. Gold on white ≈ **3.2:1** — large text only (18px+ / 14px bold). Coral on white ≈ **3.9:1** — large text / UI chrome, not body. Muted on paper is for captions, not legal copy.

White on primary · pass AA

Primary on paper · pass AA

Ink on paper (inverted)

Gold · large text only

Light product UI vs dark sidebar

BL **Light workspace**

Soft ground, paper panels, ink text. Save record

BL **Sidebar**

Nav default 72% white; active tab is solid primary blue, not a second accent.

TYPOGRAPHY

One family: Inter, then system sans

Source: `styles.css` `font-family: Inter, "Segoe UI", Arial, sans-serif`. Neither the app nor this manual loads a webfont. If Inter is installed it is used; otherwise Segoe UI (Windows) or Arial.

PRIMARY / DISPLAY · INTER 800

Keep the books for every side business.

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789

ExtraBold 800 **Black 900 (mark only)**

SECONDARY / BODY · INTER 400–700

Filter by business and period to see profit, cash movement, and what still needs attention.

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz R1,234.56

Regular 400 **Semibold 600** **Bold 700**

Extra 800

TERTIARY / DATA · CONSOLAS / COURIER NEW

`R0.00 · 2026-07-21 · #1f5fbf · business-ledger-backup-YYYY-MM-DD.json`

Money in the app is en-ZA currency via `Intl`, not this face. Use mono for paths, HEX, and backup filenames only.

TYPOGRAPHY · HIERARCHY, TRACKING, LICENSING

Scale from the product CSS

H1	**Dashboard**	32 / 800 · source
H2	**Keep the books…**	clamp 28–40 · −3%
H3	**Business Snapshot**	16 / 800
BODY	Filter by business and period. Operational tools stay available when you need them.	14–16 / 1.5
HINT	Built for your current non-VAT registered setup.	13 muted
MICRO	SOUTH AFRICA TAX YEAR	10 / 0.1em / 800

Fallbacks

Display + body: `Inter, "Segoe UI", Arial, sans-serif`

Invoice print (in-app): `Arial, sans-serif` — existing export; do not restyle without a version bump.

Tertiary: Consolas, Courier New

Licensing

Inter is the SIL Open Font License face specified in CSS. Segoe UI and Arial are system fonts on this Windows machine. Invoice HTML currently uses Arial only. No paid webfont contract is recorded.

DRAFT — CONFIRM IF INTER SHOULD BE BUNDLED LOCALLY FOR PRINT

IMAGERY & GRAPHIC ELEMENTS

UI chrome, not lifestyle photography

The product has no photography direction. Imagery is functional: business logos in `assets/`, a 8px radius, a light shadow, and the five trade colours as left-border chips on checklist rows. SOURCE · STYLES.CSS / ASSETS/

Icons

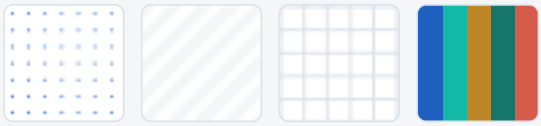

No icon font. Controls are labelled buttons (Export backup, Save record). Destructive actions use coral. Radius 8px; tap 48px. SOURCE

Patterns & motifs

Hairline `#dce3ea`. Hero is a 135° gradient from `#162232` to primary. Month alert is cream + gold, not red. Trade stripe (below) is for internal docs only — not a public rainbow logo.

DRAFT — CONFIRM MOTIF USE

Do

- Use each business's stored logo file next to its name in lists.
- Keep screenshots of the app cropped to the shell (sidebar + paper).
- Prefer empty states and numbers over stock photos of "finance".

Don't

- Don't use stock handshake / skyline accounting photography.
- Don't put live totals, client names, or backup JSON into public decks.
- Don't apply Instagram filters to the UI or the BL mark.

VOICE & TONE

How the product already speaks

Plain, operational English. Short labels. South African tax framing without jargon theatre. SOURCE · UI COPY

Direct | Unfussy | Local | Private

Tone by context DRAFT — CONFIRM

In-product	Neutral, labelled, no jokes
Alerts	Warm gold, still specific (NSR check-in)
Docs / README	How to open, backup, tax note
Social	Not a public channel — do not post books

PILLAR 1

Money in / money out, by business and period.

PILLAR 2

Backup is part of the work, not an afterthought.

PILLAR 3

VAT is out of scope until registration changes.

TAGLINE SOURCE

Private books

Use under the wordmark in the sidebar. Do not replace with "#1 accounting app" or similar. Hero sentence may appear in full: "Keep the books for every side business in one place."

VOICE & TONE · WORDS & SAMPLES

Language already in the product

Words to use SOURCE

Books, money records, income, expenses, invoices, quotes, checklists, export backup, import backup, tax year, no VAT, side business, period, net profit, listings.

Words to avoid DRAFT — CONFIRM

Synergy, cloud ledger, AI bookkeeper, "simply powerful", fintech, unicorn, "SARS-ready" as a guarantee, public URLs for this private tool, client names in screenshots.

Style

Sentence case in running text. Title case for view names (Dashboard, Money In / Out, NSR Listings). Currency as ZAR via `en-ZA`. Dates ISO in data, human in UI. No exclamation marks in chrome. Reading level: operator who already knows the businesses.

SOURCE · VIEWLABELS + COPY

SAMPLE · IN-PRODUCT SOURCE

"Filter by business and period to see profit, cash movement, and what still needs attention. Operational tools stay available when you need them."

SAMPLE · ALERT SOURCE

"Nervous System Reset monthly check-in — It is time to update where your digital assets are listed and whether anything needs refreshing."

SAMPLE · TAX NOTE SOURCE · README

"VAT is not included because the businesses are currently marked as not VAT registered. The tax overview is a preparation helper only."

SAMPLE · EMAIL / SOCIAL DRAFT — CONFIRM

Do not send marketing email for Ledger. If a note is needed internally: "Business Ledger is the private books app on this PC. Export a JSON backup before you move the folder."

APPLICATIONS

Invoice print, card, signature

Public stationery is not in the repo. Invoice/quote HTML is the real printed application (Arial, ink, 3px primary rule, "Business Ledger · No VAT"). Card and signature below are CSS mockups for a private operator — not a shopfront.

DO'S AND DON'TS

Quick reference

Do

- ✓ Use the 8px rounded-square BL mark in primary blue.
- ✓ Keep "Private books" as the only sidebar tagline.
- ✓ Set body text in ink on paper or soft.
- ✓ Use primary for active nav and the sole primary CTA on a form.
- ✓ Colour checklist rows with the business chip, not the BL mark.
- ✓ Print invoices with the 3px primary rule and "No VAT".
- ✓ Store backups under the project `backups/` folder on D:.

Don't

- ✕ Don't publish the app, this manual, or live books data.
- ✕ Don't stretch, rotate, or recolour BL to a trade colour.
- ✕ Don't set body copy in gold or coral.
- ✕ Don't add a VAT column or claim VAT registration.
- ✕ Don't swap Inter/Segoe for a display serif in the product.
- ✕ Don't treat a mockup or wireframe PDF as this CI.
- ✕ Don't put keys, passwords, or OneDrive "quoting program" leftovers in this file.

Also known as "Quoting program" on OneDrive — the D:\ Life Whatever copy is canonical. Prefer editing existing `app.js` / `index.html` / `styles.css`.

GOVERNANCE

Who owns the brand, and how files move

OWNER	Tia Power (tpowe). SOURCE · PROJECTS.MD
APPROVAL	New lockup, colour, or tagline needs a bump of this manual before it ships in `index.html` / `styles.css`. DRAFT — CONFIRM PROCESS
FILE FORMATS	ICO for favicon; PNG/SVG for business logos in `assets/`; HTML+CSS for this manual; PDF via Chrome print-to-pdf (portrait, background graphics). Invoice print is generated HTML.
NAMING	`business-ledger.ico`; backups `business-ledger-backup-YYYY-MM-DD.json`; CI PDF `docs\business-ledger-company-ci.pdf`; this file `docs\company-ci.html`.
PARTNERS / FREELANCERS	Private finance tool — do not hand this repo or live JSON to a public agency without stripping books data. No partner brand kit is documented. DRAFT — CONFIRM
VERSION	1.0 · 2026-08-19 · first CI from product CSS/HTML. Strategy/voice lines marked Draft still need owner lock.
REVIEW CADENCE	When primary blue, mark, or tagline changes in CSS/HTML, refresh this HTML and reprint the PDF. DRAFT — CONFIRM

Change control

Archive the previous PDF beside the new one. Do not silently restyle `--blue` or the BL mark. Hub secrets stay in Life Whatever `Keys/` — never in this document.

ASSET DOWNLOADS / LINKS

Where the files live (D: paths only)

No secrets. Localhost ports and live sales URLs belong to other products, not this identity kit.
